

Environmental Assessment Services, LLC

350 Hills Street, Suite 112, Richland, WA 99354

CAGE Code: 353Z2
UEI: TYBCJ5ENGT67
Primary NAICS: 541620
Business Type: SDB, ANC, Indian Small Business Economic Enterprise (ISBEE)

A member of the KOMAN Family of Companies.

Environmental Assessment Services, LLC (EAS), is an ANC-owned Small Disadvantaged Business. EAS provides comprehensive biological assessment surveys, fisheries population analysis, and regulatory compliance support throughout the Pacific Northwest and across the United States (U.S.).

EAS delivers a comprehensive suite of environmental and fisheries services, including study design, field implementation, data analysis, technical reporting, and permitting support. We integrate advanced sampling technologies, scientific expertise, and proven field performance to address complex resource challenges, ensure regulatory compliance, and support natural resource protection while maintaining operational objectives. Our interdisciplinary team specializes in fish distribution and passage studies and has extensive experience conducting habitat surveys, stream presence/absence studies, perenniality surveys, radio telemetry and fish transport studies, snorkel surveys, seining, electrofishing, spawning ground surveys, and carcass recovery to support fisheries research, monitoring, and resource management.

EAS operates a fleet of research vessels, field vehicles, rafts, and kayaks, staffed by U.S. Coast Guard-licensed captains, experienced crew, divers, and field scientists. This enables us to safely and efficiently execute projects across diverse environments while delivering high-quality results that meet client needs.

SOLUTIONS AND RESOURCES

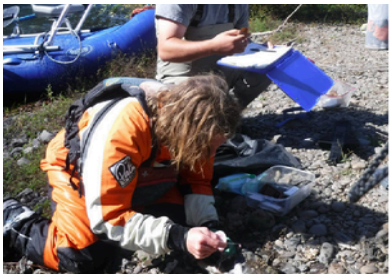

- Archaeology
- Environmental Compliance Environmental Planning/NEPA
- Environmental Sampling & Data Collection
- Federal and State Scientific Collecting Permits
- Field Tools & Technology
- Geomorphology
- Habitat Restoration
- Hazardous Waste Site Investigations
- Natural and Cultural Resources
- Specialized/Proprietary Sampling Technologies
- Vessels and Diving Operations

ADVANTAGES

- Small Disadvantaged Business
- ANC Contracting Advantages
- Strong CPARS Ratings
- Excellent Safety Record (EMR 0.68)
- Small Business Prime Contractor with Large Business Infrastructure
